

60 AMERICANS DIE EVERY DAY BECAUSE OF POOR ROADWAY SAFETY CONDITIONS

22,000 AMERICANS DIE ON DEFICIENT ROADWAYS EACH YEAR. THAT'S 22,000 REASONS WHY WE CAN'T AFFORD TO DELAY ACTION ON A ROBUST SIX-YEAR SURFACE TRANSPORTATION INVESTMENT BILL.

Narrow bridges and shoulders, and other road deficiencies are the number one contributing factor to American deaths in motor vehicle crashes. Greater than drunk driving, speeding or not wearing a safety belt.

According to a new study by the Pacific Institute for Research & Evaluation, deficient roadways cost the U.S. \$217 billion every

year – four times more than what all levels of government invest in roadway capital improvements. **Investing in safer driving *might* help; investing in safer roads *will* save lives.**
